SAFETY ACADEMY

TRAINING AND RESOURCES TO BUILD
A CULTURE OF SAFETY

BUILD A CULTURE OF SAFETY

Businesses in a variety of industries rely on the Builders Safety Academy to foster safety-proficient employees and teach the skills and knowledge to identify hazards and prevent injuries.

Participating in the Builders Safety Academy can help your business:

Reduce injuries and revenue loss

Minimize OSHA fines

Improve your reputation

Reduce insurance costs

Earn Continuing Education Credits (for contractors)

Training Center

The Builders Safety Academy offers a variety of live training and consulting services to enhance the safety education of your workforce. Rely on the OSHA-authorized professional at Builders to help you improve safety programs, conduct classroom instruction, and curate educational resources particular to your business.

There are many ways to participate in the Builders Safety Academy. Our Training Center offers helpful consulting services as well as a wealth of digital and in-person classes. For on-demand safety resources, the Builders Safety Academy also provides several online webinars and a library of safety information at your fingertips.

Consulting Services

Safety Program Development: guidance in identifying hazards critical to your business and developing controls to prevent recurrence

Lead Trainer Development: tutoring to help employees plan, develop, and deliver effective safety training

Safety Audits: live or digital walk-throughs to identify risks and implement safety solutions

Curation of Educational Resources: assistance in gathering educational content from around the web to support the safety education of your workforce

Virtual consultation is available for quick resolution of safety issues.

CLASSROOM INSTRUCTION

Classroom instruction with Builders Safety Academy is led by our OSHA-authorized trainer with over 25 years of training experience. Customized classes can be made available.

OSHA Series

All OSHA trainings are in-person classroom events, either at your location or a third-party venue. Participants will earn a lifetime 10-hour OSHA card. Georgia and Florida attendees will also earn 10 Continuing Education Credits.

- **OSHA 10-Hour: Construction**
- **OSHA 10-Hour: General Industry**

Courses normally run two hours and include mini workshops and plenty of discussion. Off-site courses carry the added benefit of multiple companies sharing their unique safety challenges and perspectives.

Employee and Management Series
